ALBUM NOTES:

=====

ENG.: *Lorca* album is a cycle of twelve Andalusian folk songs collected and arranged by Federico Garcia Lorca (1899-1936), the great Spain poet of the 20th century. These songs were recorded for the first time in the 1920s by the Spain singer Argentinita while the same F.G. Lorca accompanied her on grand piano. At present, many contemporary flamenco musicians perform these songs. On *Lorca* album, the cycle is presented in the original instrumental arrangement of Alexey Karpov.

RUS.: Альбом "Lorca" представляет из себя цикл из 12 андалузских народных песен, собранных и обработанных великим испанским поэтом XX века Федерико Гарсия Лорка (1899 - 1936). Песни были впервые записаны испанской певицей Архентинитой в 20-е годы прошлого века в сопровождении самого Ф. Г. Лорка на рояле. Многие из этих песен входят в репертуар современных исполнителей фламенко. На альбоме "Lorca" цикл представлен в собственной инструментальной аранжировке Алексея Карпова.
